

# Blazing Trails-New Development Pathways in Action

Sandrine Marreaud, MD, DES  
EORTC Headquarters

# Current challenges in Oncology

- Classical model development <> disease heterogeneity
- Screening programs
- Patterns of resistance
- Emerging technologies
- Innovative methodologies
- Regulatory Framework
- Partnerships

# SPECTA program: a forum for dialog and collaboration

## EORTC SPECTAprogram

*Screen and Treat*

### SPECTAplatforms

SPECTAcolor  
SPECTAbrain  
SPECTAmel  
SPECTAlung  
SPECTApros

### SPECTApath

PathoBiology  
Biobanking  
Scientific/operational support

### SPECTAforum

Patient representatives  
Industry  
Regulators  
Technology companies  
Governments  
Payers

### SPECTAreg

Competent bodies  
Regulatory affairs research

# The SPECTA collaborative platform

Longitudinal access to clinically annotated high quality biological material

Academic capture of biological sub groups coupled with technological expertise

Industry Cooperation for drug development

EVOLVING TO NEW MODELS OF PARTNERSHIP
